

ACCESSORY DWELLING UNITS and JUNIOR ACCESSORY DWELLING UNITS

(In-Law Units) (Updated Jan 2024)

New state legislation pertaining to Accessory Dwelling Units

In October 2019 and subsequent years, the Governor signed into legislation several bills pertaining to the development of Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs). The new legislation, effective January 1, 2020 requires a more streamlined review process and lessens certain development standards and restrictions that may have been applied in the past.

What are major changes resulting from new state legislation?

- New ADUs and JADUs must be reviewed through a **Building Permit** within 60-days.
- ADUs and JADUs must be allowed in all residential zoning districts including Multi-Family, Mixed-Use, and residential Planning Development zoning districts.
- For maximum size of an *attached or detached* ADU please see attached *Criteria Checklists*. However, city regulations cannot prohibit an ADU up to 800 square feet in size, and with side and rear setbacks of at least 4-feet.
- Owner occupancy is not required for an ADU.
- Owner occupancy is required for JADU (owner must live in primary dwelling or JADU).
- For fire sprinklers requirements please see attached *Criteria Checklists*.
- Impact fees can no longer be charged for units less than 750 square feet in size. Impact fees for units 750 square feet or larger shall be proportional to the main house.

Please note: Existing city regulations for ADUs that do not conflict with the new state legislation *are still in effect*. The City is in the process of updating its ADU Ordinance to reflect changes resulting from new legislation. Until the Ordinance is revised, applicable development criteria are outlined in detail in the attached *Criteria Checklists for both ADUs and JADUs (Attachments 3 and 4)*.

What is the difference between an ADU and JADU?

- An **Accessory Dwelling Unit** can be either an attached or detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. ADUs must include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multi-family dwelling.
- A **Junior Accessory Dwelling Unit** is a unit that is not more than 500 square feet in size and contained entirely within an existing single-family structure. A JADU may include separate sanitation facilities or share sanitation facilities within the existing structure.

JADU and ADU are now submitted via [Online Permitting](#). See [submissions standards](#) and required documents below.

What documents must I submit to obtain a Building Permit?

- A completed [General Construction Permit Application](#). See attachment 1
Please note: *Building staff will determine application completeness of online submittal. Incomplete applications will not be processed.*
- Elevations and photos** of all sides of existing home that demonstrate new ADU matches roof design, exterior paint color, and style of primary dwelling unit.
- Construction Drawings** (including Site Plan that clearly shows setback dimensions from property lines and square footages).
- Fire Sprinkler Plans** (only if required for primary house).
- Floor Plan** to scale with exterior dimensions on 11" x 17".
- Structural Calculations** (Exception: Existing buildings and additions that meet conventional light-frame construction are not required to be engineered. Permit Center staff can determine if this exception applies to your project).
- Energy Calculations** (Title-24 documentation).
- Truss Calculations** (if manufactured trusses are being utilized). This can be a deferred submittal.
- Title Report - no more than 6 months old
- [Zone 7 Impervious Surface Worksheet](#). See attachment 2.
- City of Livermore [Clean Water Site Measures Declaration](#)** . See Attachment 3.

Process and Timeframe

- Complete applications will be acted on within 60-days of submittal.
- Proposals on single-family lots with existing primary dwelling:** Complete applications will be reviewed by Planning and Engineering staff for compliance with requirements.
- Proposals on multi-family lots with existing primary dwelling(s):** Complete online submittals will be routed to Community Development staff for review and approval.
- If the permit application to create an ADU or JADU is submitted with a permit application to create a new single-family dwelling on the lot, the City may delay acting on the ADU permit until the permit for the new single-family dwelling is approved.
