Based on the type of revision or deferred submittal, there are a varying number of “sets of plan sheets” and calculations (engineering, energy (Title 24), truss, etc.) required.

**Example:** Residential = two (2) sets  
Commercial/Industrial = two (2) to six (6) sets

For clarification on the number of revised plan sheets and calculations required for your specific project, contact a Permit Technician at the Permit Center (925) 960-4410.

**Note:** A minimum of two (2) sets of the revised plan sheets and calculations need to have the original stamps and/or signatures of the individual that prepared the plan sheets and/or calculations.
